H01S16 Wire Braid Hydraulic Hose

Construction:

- Inner Tube: NBR Synthetic Rubber
- Reinforcement: One or two braids of high-tensile, super-flexible steel wire
Single braid: ≥ 300,000 impulse cycles
Double braid: ≥ 500,000 impulse cycles
- Outer Cover: Skive-free, oil-, abrasion-, and weather-resistant synthetic rubber

Application: Built for high-pressure, high-impulse performance. Ideal for excavators and heavy-duty construction machinery.

H0106 Fiber Braid Hydraulic Hose

Construction:

- Inner Tube: High-quality black synthetic rubber, oil-resistant for compatibility with a wide range of hydraulic fluids.
- Reinforcement: Single braid of high-tensile textile fiber, providing excellent flexibility and sufficient strength for low-pressure applications.
- Outer Cover: Durable black synthetic rubber, resistant to oil, weathering, and abrasion, ensuring long service life even in harsh environments.

Application: Designed for low-pressure hydraulic lines carrying oil, water, or air in compact, flexible routing—ideal for industrial, mobile, and agricultural equipment.

H0106 Fiber Braid Hydraulic Hose

Construction:

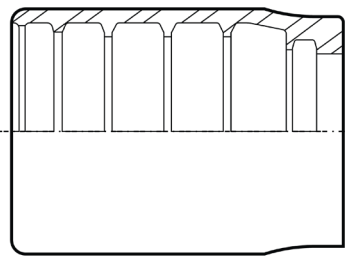

- Inner Tube: High-quality black synthetic rubber, oil-resistant for compatibility with a wide range of hydraulic fluids.
- Reinforcement: One or two braids of textile and a helical spiral-wire
- Outer Cover: Durable black synthetic rubber, resistant to oil, weathering, and abrasion, ensuring long service life even in harsh environments.

FKOFT Series

ORFS Female Swivel Hydraulic Fittings

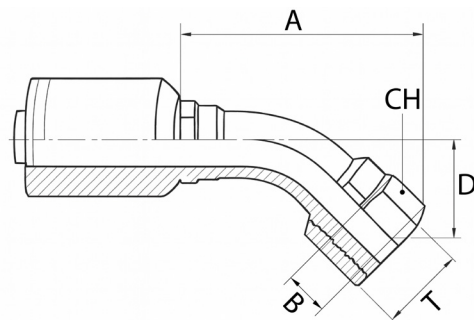

The FKOFT Series features straight ORFS (O-Ring Face Seal) female swivel fittings designed for leak-free performance in high-pressure hydraulic systems. The flat-face and O-ring combination ensures superior sealing, even under vibration or impulse conditions.
